

Print Manager Plus® Reports Center Option 2010

Standard and Professional Editions

Now view all of your print traffic online with Print Manager Plus 2010 Reports Center Option. Choose between a Standard and Professional Edition for your needs. Fully control and edit your reports over the web, Auto Import, Auto Email, Scheduling, Report Generation, Graph Generation, and many more features included.

Monitor all printing with over 100 detailed premade Reports, Statements, and Graphs that allow you to see who is printing, what they are printing, and the cost of that printing. Bill back department budgets or just examine overall print traffic and budgets. Irresponsible printing puts a strain on your company's budget and Print Manager Plus can eliminate wasted printing by up to 50% or more on a single network.

Product Features:

- Standard and Professional versions available.
- Supports SQL 2005, 2008.
- Supports Print Manager Plus 2010.

Print Manager Plus® Reports Center Option 2010

Standard and Professional Editions

- Web-based reporting.
- Over 100 Pre-built Reports, Graphs, and Statements.
- Report Delivery by Manual and Scheduled Emailing of Reports.
- Report Delivery by Export and Save to File Shares.
- Report Security Rights (Authenticates with Active Directory).
- Build custom Reports, Statements, and Charts with the Business Intelligence Development Studio. (Ad-Hoc Reporting)
- Export, Email, and Save reports to EXCEL, PDF, HTML, XML, CSV, TIFF.
- Dynamic Sorting of Live Report.
- Easy to Use Layouts (drop downs, drill downs, and drill through).
- Built-in Printing Activity Console (provides at-a-glance live statistics on all printing activity).

This add-on option for Print Manager Plus allows you to share network-printing data with your entire enterprise. With web-based reports and built in viewing rights and permissions that hook into Active Directory you can plan and execute your budget needs and flow data with ease and precision.

Set it all to automatic with a built in scheduler that will build reports, send reports and graphs via email or saved to a share on the server. If you don't like our pre-made reports, statements, and graphs, then edit them or create your own with the Business Intelligence Development Studio. (Ad-Hoc Reporting)

Pre-Made Reports Include:

Network Data Reported

Network data collected is: User Name, Full Name, User Group, Organization Unit, Workstation Name, Workstation IP, Server Name, Printer Name, Printer IP, Printer Group, and Network Bandwidth. Custom Active Directory fields.

Print Job Data Audited

Print Job data is translated into specific datasets that can be used for full featured auditing and cost analysis.

Print Job data collected is: Time/Date Printed, Document Title, Document Type, Page Count, Copy Count, Page Size, Print Job Size, Black & White Output, Color Output, Duplex, N-Up, Large Format Printing by Sheet, Square Unit, Linear Unit or per Custom Sheet Size.

PMP Client Billing & Authentication User added data collected is: Print Job Notes, Client Name, Account Name, Matter Code, Project Code/Sub Project Code. *
